

Drive Trailers - The Best Addition to your Fleet

Warranty 3 year mechanical - 2 year coating - 1 year manufacturers parts

When designing all of our series of trailers, we looked at all of the ways we could improve on previous models. We have added some features that we will make this a great trailer at an affordable price.

Our trailers are made right here in Huron, South Dakota.

PARTIAL TILT SERIES

The Next Generation of Partial Tilt Trailers for
your Lineup.

The Drive Trailers Partial Tilt Trailer offers a ton of versatility. Partial Tilt Trailers can be used to transport a variety of materials, from heavy equipment to delicate items. Strength and Dependability: Partial Tilt Trailers are known for their strength, versatility, and dependability. Lower Center of Gravity and Loading Space: The lower platform and wider deck of a PT Trailer offers good ground clearance and loading space. Cargo and Towing Styles: The PT Series setup allows for more versatility in cargo and towing styles. PT trailers can range from 16 to 24 ft in total length, with a 4', 6' or 8' Stationary Platform, and have hauling capacities ranging from 14,000 to 16,000 lbs. They are available in bumper pull or pintle-eye and in various axle configurations.

6' + 14' Tilt Galvanized Model Shown

Optional Grip Plates help you Load and Unload in the Harsh Climates.

Experience smooth and controlled loading with the tilt deck that features a gravity-assisted tilt motion, making unloading a breeze! When it's time to travel, the spring-loaded Posi-Lock latch securely locks the deck in place. For ultimate precision, the deck is held up with a locking hydraulic valve, giving you the flexibility to lower the trailer slowly based on your load's weight, ensuring a safe and steady descent every time.

Lift and secure your load effortlessly with the 15,000# Spring Loaded, Drop Leg Jack! Designed to take the weight off your truck, this powerhouse jack keeps your load stable and secure, even when it's not hitched. Get the strength and reliability you need for a seamless experience every time!

Available with 7k or 8k Torflex Axles and Greasable hardware. 8K Axles come with HD Plate Rims and 16 Ply Tires

Full Width Fork Pocket Tubes are Standard on all Partial Tilt Trailers.

Full Rub Rail and Tie Down Bar with Stake Pockets. Stake Pockets Have Pre-Drilled holes for Securing your Side Rails.

Get ready for a secure, smooth ride with the 12,000# HD Secure EZ-Latch Cast Posi-Lock Coupler! With its 5-position channel, this powerhouse provides the perfect adjustability to keep your load level and your trailer firmly attached, no matter where the road takes you. Plus, the 3/8" Grade 70 Safety Chains give you unbeatable peace of mind, ensuring your trailer stays securely hitched every mile of the journey!
