

Drive Trailers - The Best Addition to your Fleet

Warranty 3 year mechanical - 2 year coating - 1 year manufacturers parts

When designing all of our series of trailers, we looked at all of the ways we could improve on previous models. We have added some features that we will make this a great trailer at an affordable price.

Our trailers are made right here in Huron, South Dakota.

UTILITY SERIES

Small to Big, Light to heavy - Our Utility Series Trailers Covers it All.

The Drive Trailers Utility Series is a truly universal line of trailers. The Utility Series covers single axles and tandem axles. We offer 5', 6', 7' wide and 8' throw 18'. Axle combinations can be 3500# or 5200#, in single or tandem configurations. Our ramps have multiple options also. In the standard series ramps, we have a 16", 32" and the standard height 48". It is also available with a 48" Heavy Duty Ramp, featuring a ladder system under each drive area. All Utilities utilizing the 5200# axles, get a Heavier Frame and Cross Members. Aluminum axles available as an upgrade. Check out how a Drive Trailers Utility Series Trailer can benefit you.
